Something about Taxes.

The new Board of Supervisors will meet at the Court House to-day and will have under consideration the highly important subject of taxes. This is a subject in which every citizen of the county has an interest, greater or less in degree as it bears more or less hoavily upon that most sensitive nerve, the per a liability of the county has an interest, sensitive nerve, the per a liability of the county has a liability of the county has a liability of the county has an interest, greater or less in the arena. We suppose a convention at Augusta, the State capital. This is the third time a similar honor has been conferred on Mr. Richmonds in the field. — I stellar is among the youngest members of the House, being only in the House, he had the being of the House pocket. Taxes, however just they may be, are a liability which no community of men incurs from choice, and the necessity which compels heavy taxation, or a protracted period of taxation, is justly regarded as an incubus upon the prosperity of a community to the results of the House A very silly and ill-judged article appeared in the Wheeling Intelligencer of Sigma Chart with the Intelligencer would devote more of will be held at 8 o'clock dition of Wheeling and Ohio county, occasion is justly regarded as an incubus upon the prosperity of a community to the results of the House A very silly and ill-judged article appeared in the Wheeling Intelligencer of Sigma Chart will be Intelligencer would devote more of will be held at 8 o'clock of the House A very silly and ill-judged article appeared in the Wheeling Intelligencer of Sigma Chart will be Intelligencer would devote more of will be held at 8 o'clock of the Intelligencer of Sigma Chart will be Intelligencer would devote more of will be held at 8 o'clock of the Intelligencer of Sigma Chart will be Intelligencer would devote more of will be held at 8 o'clock of the Intelligencer would devote more of will be held at 8 o'clock of the Intelligencer would devote more of the Intelligencer

of a friend, compiled some figures which may interest the tax payers of the county and prove useful to the Board. It is hardly necessary to recount the circumstances which in the year 1865 rendered it necessary to levy a comparatively heavy tax upon the property of the county. It is sufficient to asy that in order to pay off an old debt contracted in the year 1809, on which the county had been paying inyear 1865 rendered it necessary to levy a comparatively heavy tax upon the property of the county. It is sufficient to say that in order to pay off an old debt contracted in the year 1859, on which the county had been paying interest for twenty-six years (which interest for twenty-six years (which interest in that time had more than doubled the principal;) to pay the one-half of the principal; to pay the one-half of the principal of the princ expenses of the county for the years ent of two dollars and sixty cents on the hundred property was made.

This it will be seen is a reduction in favor of the tax paying community of seventy-seven cents were required to pay last year. It has been rumored that the Board of Super-

been rumored that the Board of Supervisors propose asking of the Banks an extension of the time for the payment of their loans to five years, the original time being two years. While there can be no doubt that upon such a basis of real and personal property as the county of Okio is able to offer as security for the payment of her debts, the extension would be granted, if asked, we as a portion of the tax-payers of this county should much regret to see such a policy adopted by the Board of Sapervisors.

All sound financiers and practical bustness men regard it of the first importance to stop the payment of interest, and look upon it as the height of foliy for a man to pay interest upon debts which he has the means to liquidate without the slightest derangement of his current business. The tax-payers of Ohio county theerfully paid two dollars and eighty-three cents in the year 1856, when they reflect that it will rid them at once of an incubus of debt. and leave their property after the present year subject to a merely nominal taxation. We suggest to the Board of Supervisors, and to the tax payers of the county, a comparison between the policy which dragged the debt contracted in the year 1858 through twenty-six policy which dragged the debt contracted in the year 1839 through Ewithout the long years, causing the people without a dollar's worth of advantage to themselves or the country to may in register.

WE hear that the prospects are encouraging for a lively canvasa for Congress in the second district. The candidates are plentiful. Col. Lathan is understood to be a condidate for reelection; Hon. W. G. Brown is a permanent candidate of course, Dr. D. B. Dorsey, Ellery R. Hall, Esq. and John N. Boyd, Esq., of the Vedette, all of Fairmont, are spoken of as probable candidates. It is said, too, that Col. D. H. Strother, (Porte Gravon) of Berkette, Strother, (Porte Gravon) of Berkette, and James G. Blaine, of Maine,
